

Strategic HealthWare Solutions

FOR IMMEDIATE RELEASE

BlueWare Customer Reaches Milestone

Genesys Regional Medical Center Tops in Utilization of Wellness Connection

Cadillac, Michigan—November 1, 2007— Genesys Regional Medical Center, one of BlueWare's largest customers, reached a milestone in user utilization. Genesys has 1,325 users accessing 204,351 documents in BlueWare's Electronic Health Record solution *Wellness Connection*. Approximately 150 of those users are physicians accessing patient information.

BlueWare President and CEO, Rose Harr, is amazed by those statistics, "These numbers are a perfect example of what our product brings to an organization like Genesys. Making those documents available to physicians at point of care is critical to treatment."

Genesys first installed Wellness Connection in 2000, and since then has digitized over 30,000,000 documents for staff to access. These documents are being scanned into the product and electronically captured from other systems within the facility. Having this valuable information in the right hands, at the right times, is saving lives.

About BlueWare, Inc.

BlueWare is an international Strategic Healthware Solutions corporation located in Cadillac, Michigan. The development and marketing of software and hardware products specific to the healthcare industry is the major focus of our business. BlueWare develops and supports a family of software products, including the award-winning Wellness Connection, targeted at providing an on-line medical record for hospitals.

We employ a staff of highly skilled and certified professionals, teachers and healthcare leaders to perform in two distinctive areas, Industry Consulting and Product Specialization. Our associates are proficient in many healthcare related fields, and familiar with the issues of today's healthcare provider, distinguishing ourselves as a solution provider for the healthcare industry.

BlueWare's cause is noble, through our products we are committed to improving the quality of life for the people in the communities we serve. We strive to address the challenges and develop products that take into consideration the concerns of healthcare providers; security, cost, installation time and training. We are committed to the integrity of our service and to building relationships with our clients as they grow and prosper.

As an IBM Premier Business Partner, our mission is to build upon the platforms in place of healthcare providers-- by creating solutions for the interim and assisting our industry as it changes to further assist the medical patients. We are currently aggressively partnering with the Integrating Healthcare Enterprise (IHE) and the Electronic Health Records Vendors Association (EHRVA) to create interoperability between Electronic Health Records as we move to a RHIO based market.
