BlueWare Wins IBM Beacon Award for Innovation Excellence in Healthcare & Life Sciences

BlueWare Wellness Connection Electronic Health Record Increases Physician Efficiency and Speed and Accuracy of Billing

CADILLAC, Mich. – May 8, 2008 –BlueWare Inc has been named one of two winners of the award for “Innovation Excellence in Healthcare & Life Sciences” in the annual IBM Beacon Awards competition, honoring IBM Business Partners for their ingenuity, innovation, customer satisfaction and outstanding achievements in providing business solutions.

BlueWare’s Wellness Connection Electronic Health Record (EHR) is designed to provide secure, immediate access to patient information and decision support for a patient’s entire community of caregivers. With the patient history available on demand, physicians can make better informed decisions and focus on providing care. Patient information, including contact data, demographics, care history, allergies, x-rays, lab results, etc. is captured electronically, either by scanning paper documents or film, or by integrating with various information systems within the hospital. Wellness Connection EHR leverages a wide variety of IBM technologies.

The solution is built on IBM Content Manager running on the System i Server, and uses DB2 Content Management, IBM WebSphere and InfoPrint. By capturing patient information in a single, electronic format, Wellness Connection is designed to enable hospitals and caregivers to provide more efficient and better informed care and more accurate billing processes in a secure, HIPAA-compliant environment. One hospital network found that doctors gained an additional 4 hours a day with patients because of the physicians’ newly simplified workload. The Wellness Connection has been replicated in 200 hospitals throughout the U.S. and the U.K.

Judges noted that, “BlueWare’s EHR product addresses some of the most pressing clinical and business needs of healthcare providers and has a clear positive impact on customers who have implemented it. This is a Business Partner that realizes the importance of innovation and collaboration.”

BlueWare President and CEO, Rose M. Harr, truly understands what receiving this award means. “BlueWare is honored to be a Beacon Award recipient in the Healthcare and Life Sciences category. Our team works so hard to provide hospitals with a complete solution that is revolutionizing the way patients are treated. IBM has been instrumental in our success and I could not be more pleased or proud of our accomplishment.”

“BlueWare has been selected as an IBM Beacon Award winner because of its outstanding contributions to innovative solutions for the Healthcare & Life Sciences industry,” said Ravi Marwaha, general manager, IBM Global Business Partners. “BlueWare has demonstrated repeatable success in achieving strong customer satisfaction and helping companies solve critical business problems.”

About IBM Beacon Awards

More than 725 nominations were judged by a team of leading industry journalists, analysts, and IBM executives, who selected winner and finalists in 37 award categories. These IBM Business Partners will be honored during a gala event at the IBM Business Partner Leadership Conference in Los Angeles on April 30 - May 2, 2008.

About BlueWare, Inc.

BlueWare is an international Strategic Healthware Solutions corporation located in Cadillac, Michigan. The development and marketing of software and hardware products specific to the healthcare industry is the major focus of our business. BlueWare develops and supports a family of software products, including the award-winning Wellness Connection, targeted at providing an on-line medical record for hospitals.

We employ a staff of highly skilled and certified professionals, teachers and healthcare leaders to perform in two distinctive areas, Industry Consulting and Product Specialization. Our associates are proficient in many healthcare related fields, and familiar with the issues of today's healthcare provider, distinguishing ourselves as a solution provider for the healthcare industry.

BlueWare's cause is noble, through our products we are committed to improving the quality of life for the people in the communities we serve. We strive to address the challenges and develop products that take into consideration the concerns of healthcare providers; security, cost, installation time and training. We are committed to the integrity of our service and to building relationships with our clients as they grow and prosper.

As an IBM Premier Business Partner, our mission is to build upon the platforms in place of healthcare providers-- by creating solutions for the interim and assisting our industry as it changes to further assist the medical patients. We are currently aggressively partnering with the Integrating Healthcare Enterprise (IHE) and the Electronic Health Records Vendors Association (EHRVA) to create interoperability between Electronic Health Records as we move to a RHIO based market.
