BlueWare Announces Promotion

BlueWare's Jyran Glucky Promoted to Vice President of Application Development

Cadillac, MI—December 18, 2008 – BlueWare is proud to announce that Jyran Glucky had been promoted from Lead Architect to Vice President of Application Development. Glucky joined BlueWare in 2004 and since then has played an instrumental role in BlueWare's success. He has led the company with Healthcare Interoperability and has been a key developer and decision maker in recent and upcoming version releases of BlueWare's flagship product, Wellness Connection Electronic Health Record.

BlueWare's President and CEO Rose Harr said, "It gives me great pleasure to bring Jyran Glucky into the executive ranks at BlueWare. Jyran has a keen ability to apply his technical aptitude and his strong business acumen to BlueWare's Application Development goals and objectives. He is a natural leader and has amazing vision for the future of BlueWare. Congratulations to Jyran - a well earned promotion."

Glucky was previously the Senior Network Administrator for Flxtek, Inc. in Cadillac, MI. He graduated from Grand Valley State University with a B.S. in Computer Science and a minor in Microcomputer Systems. Glucky holds numerous certifications including IBM pSeries Technical Support Specialist, IBM Content Manager Solution Designer, Kofax Ascent Capture Specialist and Unix Systems Administration.

About BlueWare, Inc.

BlueWare is an international software corporation dedicated to the healthcare industry. We develop and support a family of products that delivers a comprehensive electronic health record.

BlueWare believes in a healthcare environment where information is accessible, accurate, and comprehensive. We devote our work to advancing a longitudinal electronic health record that interoperates with various systems to create the most complete record on the market. We believe that we can utilize each system within your facility to coordinate all patient information together into one user-friendly system, creating the all digital health record from "cradle to grave".
