Rose Harr Now Sole Owner of BlueWare

BlueWare President and CEO, Rose Harr, Acquires Full Ownership of Company

Cadillac, Michigan—December 20, 2007—George Beckett has sold his half interest in BlueWare to its other shareholder Rose Harr, making her sole owner and BlueWare 100% woman owned. Mr. Beckett is also stepping down as company director and as its chief technology officer. The addition of Dave Holland as COO, Cheryl Burmeister as Vice President of Application Development, and Jack Fuller as Senior Client Executive assures that BlueWare will be able to continue to develop cutting edge products and support for its significant customer base.

“I am gratified by what I was able to contribute to the birth and growth of BlueWare,” said Beckett. “While it will be difficult to leave the people I considered members of my family, I know that BlueWare will continue to prosper and I wish everyone there the best.”

“Everyone at BlueWare wishes George the best,” Harr stated. “He has been instrumental in the progression of BlueWare, and I hope to make him proud of where we go from here.”

About BlueWare, Inc.

BlueWare is an international Strategic Healthware Solutions corporation located in Cadillac, Michigan. The development and marketing of software and hardware products specific to the healthcare industry is the major focus of our business. BlueWare develops and supports a family of software products, including the award-winning Wellness Connection, targeted at providing an on-line medical record for hospitals.

We employ a staff of highly skilled and certified professionals, teachers and healthcare leaders to perform in two distinctive areas, Industry Consulting and Product Specialization. Our associates are proficient in many healthcare related fields, and familiar with the issues of today's healthcare provider, distinguishing ourselves as a solution provider for the healthcare industry.

BlueWare's cause is noble, through our products we are committed to improving the quality of life for the people in the communities we serve. We strive to address the challenges and develop products that take into consideration the concerns of healthcare providers; security, cost, installation time and training. We are committed to the integrity of our service and to building relationships with our clients as they grow and prosper.

As an IBM Premier Business Partner, our mission is to build upon the platforms in place of healthcare providers--by creating solutions for the interim and assisting our industry as it changes to further assist the medical patients. We are currently aggressively partnering with the Integrating Healthcare Enterprise (IHE) and the Electronic Health Records Vendors Association (EHRVA) to create interoperability between Electronic Health Records as we move to a RHIO based market.
