Wellness Connection Version 4.0 Arrives

BlueWare Enhances Wellness Connection Adding Functionality

Cadillac, Michigan—February 5, 2008— Building on a strengthened focus of customer requests, BlueWare now has an enhanced version of *Wellness Connection* with added benefit, workflow and functionality. Perhaps the most exciting and noticeable difference in Version 4.0 will be the new Web 2.0 look and feel of the screens. Designed with ease of use in mind, Wellness now boasts a horizontal tabbed system with a full screen display and no scrolling. This new version will be available June 2008.

BlueWare first announced its entry into electronic health records in 1996, delivering a document management approach as the foundation for an electronic health record. This new version is further proof of BlueWare's ability to evolve with the changing industry and create enhancements specific to the needs of customers.

BlueWare's *Wellness Connection* Electronic Health Record was the first to market with an easily implemented modular approach. *Wellness Connection* has been the recipient of numerous awards including a Beacon Award for Best DB2 Solution Globally and a finalist for Driving Patient-Centric Healthcare. BlueWare continues to expand its affordable solution to meet the requirements of healthcare organizations. Increased focus on ease of use, workflow, security, integration and compatibility are factors influencing expansion.

About BlueWare, Inc.

BlueWare is an international Strategic Healthware Solutions corporation located in Cadillac, Michigan. The development and marketing of software and hardware products specific to the healthcare industry is the major focus of our business. BlueWare develops and supports a family of software products, including the award-winning Wellness Connection, targeted at providing an on-line medical record for hospitals.

We employ a staff of highly skilled and certified professionals, teachers and healthcare leaders to perform in two distinctive areas, Industry Consulting and Product Specialization. Our associates are proficient in many healthcare related fields, and familiar with the issues of today's healthcare provider, distinguishing ourselves as a solution provider for the healthcare industry.

BlueWare's cause is noble, through our products we are committed to improving the quality of life for the people in the communities we serve. We strive to address the challenges and develop products that take into consideration the concerns of healthcare providers; security, cost, installation time and training. We are committed to the integrity of our service and to building relationships with our clients as they grow and prosper.

As an IBM Premier Business Partner, our mission is to build upon the platforms in place of healthcare providers-- by creating solutions for the interim and assisting our industry as it changes to further assist the medical patients. We are currently aggressively partnering with the Integrating Healthcare Enterprise (IHE) and the Electronic Health Records Vendors Association (EHRVA) to create interoperability between Electronic Health Records as we move to a RHIO based market.
