

BlueWare's *Wellness Connection* Version 4.3 Release

Overview

In keeping with their commitment to timely releases, BlueWare prepares to release ***Wellness Connection* Version 4.3** at the end of this month. *Wellness Connection* 4.3 includes many end user enhancements such as eForms, Enterprise Master Patient Index 2.0, Bookmarks, color-coded tabs and Legal Chart. It also includes global customization options which give system administrators greater flexibility.

Some of the highlights of the ***Wellness Connection* Version 4.3** release are:

eForms

- Clinicians and hospital staff can fill out forms online, as well as save and view the forms all through the *Wellness Connection* application
- Allows hospitals to eliminate paper forms
- Offers increased security as facilities can dictate which users have access to what forms

Enterprise Master Patient Index 2.0

- Gives facilities the ability to use a common patient ID across multiple systems
- Reduces data redundancy and reduces duplicate patient information across multiple providers or systems

Bookmarks

- Allow users to 'bookmark' items that a specific user commonly accesses
- Save the hospital staff time as they will have immediate access to desired information

Legal Chart

- Component of eChart
- Gives *Wellness Connection* users the ability to select all legal documents related to a patient or a visit
- Easily print a legal chart in a matter of clicks

Wellness Connection 4.3 includes many additional features that are designed to save time for clinicians and hospital staff.

Customers, please join us for a customer technical webcast detailing *Wellness Connection* Version 4.3 on Thursday 11th March at 11:00am EST.
