

BlueWare

be green. **save** green.
it's easy with blueware.

The amount of paper used by
one customer
with 78 beds in **one**
year is shocking:

Information Systems	2,000,000
Medical Records	520,000
Photocopying in Medical Records	715,520
Faxing Medical Records	148,932
Total	3,384,452 sheets per year

Be Green. Save Green.

Microfilm	\$106,609
Medical Records	\$49,066
Photocopying in Medical Records	\$31,024
Patient Billing	\$16,500
Offsite Verification	\$3,960

Total

\$207,159
savings per year

On average, one tree can produce 90,000 sheets of paper.

In this small community hospital, 38 trees were used for paper in one year.

Go Paperless.

Let BlueWare's EHR,
Wellness Connection, be
the link towards provid-
ing the ultimate in patient
care....

all the while **conserving**
resources and
preserving
the natural
ecosystems.

Saving Green

These 38 trees could've:

- Protected...
coastal areas
 - Conserved...
soil & water
 - Controlled...
avalanches
- 

Saves You Green

- Produced...
enough oxygen for
152 people for one
year
- Prevented...
desertification

Trees are Good.

Hospital patients have been shown to **recover** from surgery more quickly when their hospital room offered **a view of trees....**

....and medical charts in the hands of their doctor **does not count** as a view of a tree.

Making the world a **better place** through electronic health records and **sustaining** it so it **stays** a better place.

Being green is easy with **BlueWare.**
